# HPE SYNERGY 10GB INTERCONNECT LINK MODULE

## Synergy Interconnect Link Modules

---

### WHAT'S NEW

- Available for ordering Q3CY2016

### OVERVIEW

Wouldn't you like to consolidate legacy hierarchical architecture based on north/south design with oversubscription bottlenecks into a flat, east/west based architecture? In addition increase data throughput and reduce latency with only a single hop within large domains of virtual machines or compute modules?

The HPE Synergy 10Gb Interconnect Link Module, satellite

module, based on composable fabric is designed for Composable Infrastructure. Based on disaggregated, rack-scale design, it uses a master/satellite architecture to consolidate data center network connections, reduce hardware and scale network bandwidth across multiple HPE Synergy Frames.

The master module contains intelligent networking capabilities that extend connectivity to frames equipped with satellite modules. This reduces top of rack switch need and substantially decreases cost. The reduction in components simplifies fabric management at scale while consuming fewer ports at the data center aggregation layer.

## FEATURES

### **Reduces the Need for Fixed Ratios of Interconnects and Substantially Reduces Cost and Complexity**

The HPE Synergy 10Gb Interconnect Link Module of HPE Synergy composable fabric extends satellite frame connectivity to master frame. The connectivity to master frame is through zero latency cables and replaces fixed ratio of interconnects with flexible ratio of networking pool of resources.

Inherits all the benefits of master module. Up to four additional satellite frames can be connected to master module with Synergy 10Gb Interconnect Link Module.

Firmware upgrade on master module won't affect Synergy 10Gb Interconnect Link Modules making software upgrade on master module less impactful to the satellite modules.

Adding a satellite frame doesn't increase east/west traffic hop count between Synergy Compute Modules connected to same master module. Up to 60 Synergy Compute Modules with one-hop can be supported with master module.

Adding frames with Synergy 10Gb Interconnect Link Modules doesn't consume ports on the aggregation switch.

### **Flexible with Different Edge Network Architecture**

The HPE Synergy 10Gb Interconnect Link Module fits into different architecture based on edge interconnects needs.

Supports HPE Virtual Connect SE 40Gb F8 Module for Synergy and HPE Synergy 40Gb F8 Switch Module.

## Technical specifications

## HPE Synergy 10Gb Interconnect Link Module

---

**Warranty**3 year Parts, 3 year Labor, 3 year On-site support

---

## HPE POINTNEXT

Access expertise at every step of your IT journey with [HPE Pointnext Services](#). [Advisory Services](#) focuses on your business outcomes and goals, to design your transformation and build a roadmap tuned to your unique challenges. Our [Professional](#) and [Operational Services](#) help speed up time-to-production and keep your IT stable and reliable.

### Operational Services from HPE Pointnext Services

- [HPE Datacenter Care](#) helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
- [HPE Proactive Care](#) offers an enhanced call experience and helps reduce problems with personalized proactive reports and advice. This also includes collaborative software support for Independent Software Vendors (ISVs), (Red Hat, VMWare, Microsoft, etc.). [Read more](#)
- [HPE Foundation Care](#) helps when there is a problem and has a choice of response levels. Collaborative software support is included and provides troubleshooting help for ISVs running on your server. [Read more.](#)

### Other related services

[Defective Media Retention](#) is optional and applies only to Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

[HPE Service Credits](#) offers a menu of technical services, access additional resources, and specialist skills.

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation.

Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

## HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.

If you are looking for more services, like [IT financing solutions](#), please [explore them here](#).
